7/31/77

Dear Jan,

Thanks for another lovely card and the wishes that go with it.

If I do not have Lillian's remaks Ted said he'd send them.

Other things are on my mind and I do not recall.

I don't have any of the pamphlets. I had the first two but as so often happens I loaned them out years ago they never came back.

With the passing of time the only probable value these things have is as collectors' items so they may be even harder to get.

Marzani and Munsell have ben out of business for many years.

Unless you find someone who has them I guess your only chance is xeroxes from library copies, maybe in New York, which has a big library, if not in L.A.

Let us hope you condition improves. Mine can't. My hope now is that it hasn't worsened. I see a specialist tomorrow.

Thanks for your good wishes and my best to you,

sincerely,
